

We sell low voltage wires and cables manufactured exclusively in Italy.

In any field are Italian producers well known for being extremely skilled, experienced, always leading to high quality standards and still managing to be highly competitive.

Our everyday work is to connect the top quality of Italian wire and cable manufacturers to the high standard requests of today's markets.

We take care of your requests, find your best suitable supplier, follow all steps of the order until delivery. Fast, smart, organized, reliable.

Our main Partners are:

**NOVACAVI**

all located in the norther part of Italy, each leading in technology and experience in their special range of cable production, starting from standard PVC and rubber materials to a radiation resistant electrical cable winning 2009 Golden Award of CERN, Geneva.

#### Packaging:

coils

plastic reels

plywood drums

IPPC wooden drums

small or big barrels
